

15th March 2022

Subject: European Directive 2011/65/EC of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS, recast).

Dear Sir, Madam,

The European Directive cited above restricts the use of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants in the equipment listed in annex I of the directive.

Legrand seeks to go further than the regulation and in the aim of environmental protection and has therefore decided to eliminate the substances covered by this directive from all its products.

Here under specifically:

We can confirm that they are in compliance with the restrictions on the use of hazardous substances defined in the directive.

We are prepared to examine any alternative solution meeting your needs. Do not hesitate to contact us in this regard.

We remain at your disposal for any further information.

Yours sincerely,

Jakob Thornye
Technical Manager
