REACH – Declaration

Gallagher Europe is importer of electronic products and accessories, thus – in the sense of REACH – we are so-called “importer of products”. The products we supply to you are solely non – chemical products (goods). Moreover and under normal and reasonable foreseeable circumstances of application, the goods supplied to you shall not release any substance. For that, Gallagher Europe is not obliged for registration.

For the wet batteries we have limited obligations. For these products, delivered with an acid package, we have material safety data sheets (MSDS) available.

Furthermore, we will immediately inform you In correspondence to REACH-article 33 if any substance of content (as from a content of >0,1%) in our goods will be classified alarming by the European Agency for Chemicals ECHA. Based on the current status, however, we do not expect such an incidence.

Independent of that fact, we are intensively pursuing the realization of REACH on the part of our suppliers; we do that in our own interest and in order to guarantee a high level of product safety for our customers. We are in close contact with our suppliers and will implement the pre-registration and / or later registration of the relevant materials in REACH respectively in our process of supplier qualification.

Gallagher Europe B.V.
