REACH-regulation

Dear business partner!

You requested information about products to be shipped by FABER, linked to REACH. The amount of requests makes it impossible to reply on every individual letter. We are informing you as follows:

From REACH arise the following, for FABER as a supplier of "articles", relevant obligations (article 33):

Any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0,1 % weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance

We confirm that in our products cables and cords (including packaging materials) no substances, included in the candidate list (SVHC, per 10.06.2022), are contained in a concentration above 0,1 % weight by weight (w/w) (exceptions see Annex A).

For more information, please contact Mr. Benjamin Backes (e-mail BBackes@faberkabel.de)

Sincerely

KLAUS FABER AG

B. Backes
