

## Declaration of Conformity

### RoHS

#### **Directive 2011/65/EU**

on the restriction of the use of certain hazardous substances in electrical and electronic equipment

#### **Delegated Directive (EU) 2015/863**

amending Annex II to Directive 2011/65/EU of the European Parliament and of the Council as regards the list of restricted substances

### REACH

#### **Regulation (EC) 1907/2006**

concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

#### **Regulation (EU) 1272/2013**

amending Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) as regards polycyclic aromatic hydrocarbons

---

### RoHS

The directive no. 2011/65/EU, also known as the RoHS Directive, regulates the requirements for the use and forbids the use of certain dangerous substances in electrical and electronic equipment. This European directive is implemented in Germany by the directive "Elektro- und Elektronikgeräte-Stoff-Verordnung (ElektroStoffV)". The directive states that electrical and electronic equipment may only be placed on the market if the requirements of § 3 (1) are met.

Through the delegated directive EU 2015/863, the inclusion of four additional substances in Annex II of the EU Directive 2011/65/EU was decided and published on June 4, 2015. This results in the following complete list of substances subject to restrictions in accordance with Article 4 (1) of EU Directive 2011/65/EU, with details of the maximum permissible concentrations in homogeneous materials in per cent by weight:

- |  |  |          |
|--|--|----------|
| - Lead                                 |  | (0,1 %)  |
| - Mercury                              |  | (0,1 %)  |
| - Cadmium                              |  | (0,01 %) |
| - Hexavalent chromium                  |  | (0,1 %)  |
| - Polybrominated biphenyls (PBB)       |  | (0,1 %)  |
| - Polybrominated diphenylethers (PBDE) |  | (0,1 %)  |
| - Bis(2-ethylhexyl) phthalate (DEHP)   |  | (0,1 %)  |
| - Butyl benzyl phthalate (BBP)         |  | (0,1 %)  |
| - Dibutyl phthalate (DBP)              |  | (0,1 %)  |
| - Diisobutyl phthalate (DIBP)          |  | (0,1 %)  |

We hereby confirm, based on the information available to us from our suppliers, the conformity of our products with the following legal regulations:

- Directive 2011/65/EU
- Delegated Directive (EU) 2015/863
- ElektroStoffV

## **REACH**

The regulation (EC) no. 1907/2006 concerning the registration, evaluation, authorization and restriction of chemicals (REACH) obligates all suppliers, according to the article no. 33 (1), to inform their customers, if they use a substance of very high concern (SVHC) in a concentration above 0,1 % weight by weight (w/w) in products.

To guarantee a safe usage of our products, we pull the duty to the REACH regulation. We observe the latest actualization of the SVHC candidate list as of January 17, 2022 including 223 substances, published by the European Chemicals Agency (ECHA). We didn't receive any supplier information about the usage of SVHC substance in a concentration above 0,1 % weight by weight (w/w) in our products.

If we receive any new information regarding this topic, we will inform you and take suitable action. We hereby declare ourselves being compliant with the Regulation (EC) 1907/2006.

## **PAH**

The regulation (EC) no. 1907/2006 (REACH) faced a change to the annex XVII, which was activated by the regulation (EC) no. 1272/2013 becoming effective. This regulation is especially for polycyclic aromatic hydrocarbons (PAH) and prohibits their usage in any article.

Herewith we confirm that all delivered products are conform to the regulation (EC) no. 1272/2013.
